

Junior Water/Wastewater Operator

Position Summary:

Conduct compliance sampling and O&M and/or provide support on a range of potable water and/or wastewater projects in Nevada and California for an environmental consulting company. Selected candidate will work under the supervision of a Project Manager and/or Senior Water/Wastewater Operator.

Full or part-time

Essential Duties and Responsibilities:

The essential functions include, but are not limited to the following:

- System inspections, O&M, optimization, and monitoring
- Measurement of field parameters and collection of compliance samples (depending on certification)
- System maintenance, troubleshooting, and repairs
- Embrace and support a safe work environment
- Maintain site safety and field logs
- Assist in preparation of operation status and periodic reports
- Willing to stop work as necessary to prevent incidents or impact to the environment
- Requires extensive field work (80%) and travel both in Nevada and other Western States
- Must be willing and able to travel

Minimum Qualifications (Knowledge, Skills and Abilities):

- Relevant operator experience (1+ years, G1 and D1 a plus)
- Interest in potable water/wastewater and environmental monitoring, working toward certifications
- Strong mechanical/electrical skills
- Experience working with valves/piping, pumps, generators, controls, and sampling equipment
- Self-starter and quick learner with effective communication skills
- Ability to work individually and as part of a team, flexible
- Strong attention to detail and safety

Potable water and/or wastewater certifications preferred (D1, T1 and/or G1), but not required. HAZWOPER and MSHA training certification are also preferred but can be provided if necessary. One of our Senior Operators will train/mentor and supervise work activities.

Operator may also be utilized to support environmental field work including groundwater monitoring/sampling, and collection of soil, water, and air samples on various projects. Salary-based position with full company benefits (i.e., Health Insurance, Life Insurance, 401K Plan, and paid Sick Leave, Holiday, and Vacation) when working full time.

Valid driver's license required; pre-employment drug/alcohol testing are employment prerequisites.
