Position Objectives:

Oversees the operation and maintenance of water and wastewater treatment plants. Provides leadership and guidance in water and wastewater plant management. Works with Regional Manager and/or VP of Operations to ensure continuity of processes, goals and vision of Great Basin Water Co. and the Corix Group of Companies. As such the Area Manager develops strategic plans for water and wastewater needs from staffing to capital improvements to new technologies to daily operations maintaining compliance with all regulators.

Context:

As a regulated water and wastewater utility, we are regulated at the federal, state and local levels. As such, we must operate within the laws, rules and regulations including reporting to the Public Utilities Commission of Nevada and other state and local government and quasi-governmental agencies with accurate filings. Efficient operations are safer, keep us in compliance, reduce workload, and keep our rates reasonable for our customers.

About the Corix Group of Companies

Corix is a leader in the implementation and management of sustainable water, wastewater, and energy utility infrastructure for small to medium-sized communities across North America with consistent growth in our areas of expertise. We are a privately held corporation owned by the British Columbia Investment Management Corporation (BCI) with head offices located in Vancouver, BC and Chicago, IL. Inspired by our vision to build a world of sustainable communities, Corix is recognized as a community-focused provider of the essential utility services necessary to ensure the long-term viability of the communities and customers we serve.
