

Job Title:	Field Supervisor
Reports to:	Area Manager
Department:	Operations
Location:	Pahrump, NV - West Business Unit
How to Apply:	Click on the link below to apply: https://recruiting.myapps.paychex.com/appone/MainInfoReq.asp?R_ID=2841192

Position Objectives:

A Water/Wastewater Field Supervisor is responsible for supervising and coordinating the safe, compliant daily operations of the utility field business, including maintenance and repair of infrastructure and their condition assessment. The Field Supervisor participates in long-range strategic planning for capital improvements, personnel development, and overall operational enhancements to provide quality seamless utility service. The Supervisor is typically assigned to either water or wastewater department but, offers support to the overall operations of the Utility. The Supervisor has direct reports.

Context:

As a regulated water and wastewater utility, we are regulated at the federal, state and local levels. As such, we must operate within the laws, rules and regulations including reporting to the Public Utilities Commission of Nevada and other state and local government and quasi-governmental agencies with accurate filings. Efficient operations are safer, keep us in compliance, reduce workload, and keep our rates reasonable for our customers.

About the Corix Group of Companies

Corix is a leader in the implementation and management of sustainable water, wastewater, and energy utility infrastructure for small to medium-sized communities across North America with consistent growth in our areas of expertise. We are a privately held corporation owned by the British Columbia Investment Management Corporation (BCI) with head offices located in Vancouver, BC and Chicago, IL. Inspired by our vision to build a world of sustainable communities, Corix is recognized as a community-focused provider of the essential utility services necessary to ensure the long-term viability of the communities and customers we serve.
